

*A New Locality for Allanite.*—Dr. ISAAC LEA presented a specimen of allanite and zircon, in quartz rock, which he had found at Yellow Springs, Chester County; this being a new locality for allanite.

*A New Locality for Copiapite.*—Mr. E. S. REINHOLD presented a specimen of copiapite which he had found at Mahanoy City. It had been identified by Prof. Lewis, and is now announced as from a new locality.
